Chris:

Attached is a draft stipulation and joint motion to amend. We also include a proposed order and a redline against Microsoft's original proposal. Please let me know if Microsoft agrees to this proposal. You and I spoke about doing this as a pure stipulation and order. If the substance of these documents are approved, I recommend we do another revision to accomplish that.

Please note that Motorola dropped Microsoft's Exhibit B and instead inserted a statement that Microsoft provided Motorola with a copy of Microsoft's proposed amended Contentions, and that Motorola does not oppose.

Also, your October 7 email provides a link to Microsoft's amended materials. Unfortunately, I did not download those documents, which later became inaccessible from the link. Would you please repost those documents for Motorola's review prior to any filing? Thank you.

Finally, as noted in its preliminary infringement contentions, Motorola intends to supplement its infringement claim charts with citations to source code after Microsoft has produced for inspection the source code for the Accused Products. We expect that Microsoft will not oppose a motion to supplement with respect to source code at that time.

Best regards,

Phil
